

Dear Senator/Representative [Last Name]:

As a physician [trained/training] in combined Internal Medicine-Pediatrics, I am writing to request a meeting on Monday, October 19, 2009. On this day, myself and other physicians trained in Internal Medicine-Pediatrics will be visiting Capitol Hill for a Medicine-Pediatrics Hill Day and would like to discuss the importance of including combined Internal Medicine-Pediatrics as a primary care specialty to any proposed federal legislation. As a [program director/resident at name of institution and its location or practicing physician in this location], I find this issue to be of great concern.

Thank you for your consideration of this request. Please contact me at [phone] or [email address] with questions. I look forward to hearing from you soon.

Sincerely,

[Name]
